

Textile Terminologies from the Orient to the Mediterranean and Europe 1000 BC - AD 1000

Copenhagen, 18th-22nd June 2014

Convened by Salvatore Gaspa, Cécile Michel & Marie-Louise Nosch

Official Satellite Event of European Science Open Forum 2014

Textile terminologies represent a fundamental sector of technical knowledge of the ancient and modern societies. This international conference, which will gather international scholars from universities, research institutes, and museums, will investigate the whole gamut of lexicological topics and methodological approaches about textiles attested in the languages of the Near East, the Mediterranean and Europe from 1000 BC to 1000 AD. Accordingly, terms for fibres, tools, techniques, garments, professions, metaphorical uses of textiles as well as ongoing projects of classification of textile terminologies will be discussed in this conference.

The conference is open for interested scholars and colleagues. There is no registration fee.

Please contact Dr Salvatore Gaspa for registration: tmj860@hum.ku.dk
